

Industry leader of commercial and industrial refrigeration, heating, ventilation, air conditioning, plumbing, and energy management.

*The incredible is done here daily...
The impossible takes a little longer.*

Preventive Maintenance

With any mechanical equipment, regular maintenance saves you time and money. Scheduled maintenance provides savings through efficient use of equipment, reliability of equipment, and extended life of equipment.

Benefits to the customer:

- Detailed listing of all equipment
- Customized maintenance planner
- Improves energy efficiencies
- Improves reliability of equipment by reducing breakdowns
- Reduction of operating costs
- Controls maintenance budget

Energy Management

LOWE has always been at the forefront in energy management. Having worked in the far north and arctic regions where energy costs have always been high, we have partnered with our customers to develop energy saving strategies.

Take advantage of LOWE's expertise to develop an energy management program in the area of:

- Refrigeration
- Heating, ventilation, and air conditioning
- Plumbing and boilers

About Us

Lowe Mechanical Services Ltd. has become an industry leader in commercial and industrial refrigeration, heating, ventilation, air conditioning, plumbing, and energy management. LOWE is a progressive company based in Winnipeg, Manitoba, Canada. LOWE provides services in all provinces and the northern territories. With the benefit of over 800 years of combined experience, LOWE has developed a unique skill set to provide services across Canada from coast to coast and as far north as Tuktoyaktuk, Resolute Bay, Arctic Bay, and Kuujjuaq.

Our success is the result of a highly skilled team of employees that is focused on providing solutions which are best for the customer. LOWE employees are selected with a focus on industry experience, high scholastic achievement, and integrity. LOWE proudly employs more than 60 individuals resulting in a diverse range of skills and experience. Our exceptional field team consists of 25+ journeymen and 20+ apprentices.

Our professional office staff includes 7 project managers, a Certified Engineering Technologist and a Professional Mechanical Engineer. Critical to the success of LOWE is our support staff who is second to none in the industry. We have the right people and solutions to meet your needs. Whether you require a complete store renovation, energy management services, full refrigeration, HVAC or plumbing system, we will do our utmost to assist you.

All LOWE employees are committed to customer service. We pride ourselves on learning customers' needs and customizing our services to satisfy them. We have developed many long-term relationships with our customers by satisfying their demands in an open and honest way.
